

Specialist Sub-Agent Builder

Build dedicated AI specialist agents with their own knowledge base. No code required.

Available from the Better Creating marketplace

COWORK OS PLUGIN

THE FOUNDATION

What Is the Sub-Agent Builder?

It's a plugin available from the Better Creating marketplace (see the Plugins Installation Guide). It ships alongside the Personal Assistant plugin and lets you create dedicated specialist AI agents — each one an expert in a specific domain you choose, powered by a searchable knowledge base you seed.

Think of it as the CoWork OS equivalent of Agent OS specialist modes. If you use Agent OS in Notion to create specialist agents there, this does the same thing natively inside Claude CoWork — with file access, tool connections, and scheduled tasks. Learn more about Agent OS at bettercreating.com/agentos.

The builder is the factory. Each specialist it creates is a standalone product — a plugin you install once and use forever.

ANATOMY

What You End Up With

Every specialist is a self-contained plugin file with: *Personality & Rules, Knowledge Base (structured entries), Search Engine (keyword search, upgradeable to semantic)*

THE BUILD PROCESS

How It Works

- 1 Define specialist**
Domain, personality, constraints
- 2 Seed knowledge base**
From Notion, files, or paste
- 3 Choose search tier**
Keyword default, semantic advanced
- 4 Test and package**
.plugin file

The Heart of Every Specialist

What Goes In

Frameworks, principles, techniques, examples

How It's Structured

One concept per entry, with title, type, content

Where It Comes From

Notion, files, paste directly

Growing it over time: Start with 5–10 entries. Add more as you refine.

SEARCH

Two Ways to Search

DEFAULT: Keyword Search

Free, instant, good for under ~100 entries

ADVANCED: Semantic Search

Finds by meaning, needs API key, scales to thousands

INSPIRATION

What Could You Build?

- Content Strategist
- Client Onboarding Expert
- Email Copywriter
- Research Analyst
- Meeting Prep Assistant
- Operations Manager

The pattern: Pick a role with accumulated knowledge. Capture it. Package it. Reuse it.

GET STARTED

Build Your First Specialist

- 1 Pick domain**
What are you an expert in?
- 2 Gather material**
5-10 key pieces of knowledge
- 3 Say 'build a specialist'**
Run the builder skill in CoWork
- 4 Install and use**
Saved to RESOURCES/PLUGINS/. Install from Customise > Plugins

Pro tip: *Install the builder from the Better Creating marketplace (see Plugins Installation Guide). Say 'review my specialist' anytime to improve an existing one.*

YOUR AGENT ECOSYSTEM

Part of CoWork OS

Every specialist inherits your identity from About Me files, works alongside other plugins and skills, and can be combined with scheduled tasks.

Your specialists are never isolated. They're part of a coordinated system. See other guides in RESOURCES/GUIDES/.

BETTER CREATING

Systems Made Better

CoWork OS is part of the Better Creating ecosystem — tools, templates, and training for non-technical people building with AI.
